

Sheeraz Usmani

Data Analytics | SQL, BI & Operational Analytics | Forecasting & Statistical Modeling
Houston, TX • 832-910-3785 • sheerazusmani18@gmail.com • [linkedin.com/in/sheeraz-usmani](https://www.linkedin.com/in/sheeraz-usmani)

PROFESSIONAL SUMMARY

Data and analytics professional with 2+ years of experience in SQL querying, BI reporting, and operational analytics. Proven ability to translate business objectives into KPIs, dashboards, and data-driven insights across cross-functional teams. Proficient in Power BI, Tableau, Excel modeling, and Python fundamentals (pandas, NumPy). AWS Certified AI Practitioner with exposure to machine learning concepts and data pipeline development.

TECHNICAL SKILLS

Languages & Querying: SQL — data pipelines, ETL, joins, window functions; Python Fundamentals — pandas, NumPy, data cleaning, exploratory analysis, basic regression/modeling concepts; Advanced Excel — pivot tables, regression, forecasting
Machine Learning & Statistics: Machine Learning Fundamentals, Statistical Modeling, Regression Analysis, Forecasting, Predictive Analytics, A/B Testing, Root Cause Analysis, KPI Development
Data Engineering & Modeling: Data Pipelines, ETL, Data Modeling, Data Warehousing, Data Governance & Quality
BI & Visualization: Power BI, Interactive Dashboards, Storyboards, Executive Reporting, Tableau
Cloud, Tools & Delivery: AWS, Generative AI Concepts, Jira, Confluence, Visio, Agile & Waterfall, Requirements Gathering, Stakeholder Management, Measurement Strategy, Process Optimization

PROFESSIONAL EXPERIENCE

Amazon Inc.

Operations Analyst

Houston, TX
July 2024 – Present

- Queried and modeled operational data using SQL and Excel to identify workflow bottlenecks, delivering data-driven insights that increased site-wide productivity by 32% and contributed to \$500K in annualized cost savings.
- Conducted weekly root cause analysis (RCA) on on-time departure misses and partnered with operations and transportation teams to redesign processes, reducing late departures by 45% within 60 days.
- Developed and maintained operational analytics dashboards using AWS monitoring tools to proactively surface recurring bottlenecks, improving operational uptime by 12% and reducing incident recurrence by 20%.
- Translated business objectives into measurement strategies, KPIs, and operational playbooks, improving adoption of data-driven processes across cross-functional teams.

Clever Inc.

Customer Solutions Representative

Houston, TX
February 2024 – June 2024

- Analyzed customer-level usage data across 50+ daily cases to identify adoption trends and surface actionable insights, supporting data-driven decisions around integrations and provisioning workflows.
- Bridged business stakeholders and technical teams to support system integrations and data-driven adoption strategies.

Protiviti, Inc.

Data & Analytics Consultant Intern

Dallas, TX
May 2022 – August 2022

- Collaborated in building SQL data pipelines to automate extraction, transformation, and loading (ETL) of operational data into Tableau, reducing manual reporting effort by 30% and improving data accuracy.
- Partnered with 5+ consulting teams to develop Tableau storyboards for four enterprise clients, applying data modeling, calculated fields, and interactive visualizations to deliver a 20%+ increase in client satisfaction scores.

PROJECTS

- Operational Performance Dashboard | Amazon Inc.** — Built an end-to-end analytics dashboard using SQL and AWS QuickSight to visualize throughput, departure trends, and site-level KPIs, enabling leadership to monitor performance and identify bottlenecks in real time.
- Customer Adoption Analytics Report | Clever Inc.** — Independently developed a Power BI and Excel report tracking customer engagement and adoption trends, surfacing usage patterns that informed client success strategy and upsell opportunities.
- ETL Pipeline Development | Protiviti, Inc.** — Contributed to a SQL-based ETL pipeline for an enterprise client, writing extraction and transformation queries to load operational data into Tableau for reporting, and supporting pipeline documentation and data flow design.

EDUCATION

B.S. in Information Technology Systems, Business Analytics focus

August 2019 – December 2023

The University of Texas at Dallas, Jindal School of Management — Major GPA: 3.79/4.0

Honors: JSOM Jindal Student Grant, Peter Buffer Scholarship, Dean's List (2021–2022)

CERTIFICATIONS

AWS Certified AI Practitioner (Jan 2026) • AWS Certified Cloud Practitioner (Dec 2020) — Amazon Web Services • Microsoft Certified: Azure Fundamentals AZ-900 (Jul 2026) • Microsoft Certified: Azure AI Fundamentals (AI-900) (Jul 2026)
